GRENADA, GRENADA COUNTY MISS.

THURSDAY, SEPTEMBER 19, 1946

NUMBER EIGHT

If this is an unusually good issue of the Grenada County Gut, credit should be given the old lady and Whyte Jr. for the old man is luxuriating at the Veterans' Hospital in Memphis.

Nobody yet seems to know, but it appears likely that the county election commissioners of the several counties of Mississippi will constitute the draft board in this state. If so, Ed Underwood, Hurd Horton and I will be the draft board, and so far as I am concerned, that will be a job that I am not seeking tho, if named to the board, I will do the best I can.

Frankly, if the army would accept volunteers on a ONE YEAR basis, I believe the first draft would not be necessary.

Miss Louise Sanderson took advantage of our offer to send the GCW for the school term for a dollar. She is going to Ole Miss.

All the sweet.

dear mr top, i am got no 3088 pen shu yit, line up hear at the veterans pens pittle n' memphis an line going 2 try 2 git a pensum from uncle sam,

Be sure to carry your printing orders, some of them at least, to the GCW while I am gone, and keep on when I get back.

Suggestion to WGRM: please play something soft and soothing for My Man Hugh and Rayburn.

I am indebted to Bake Hamsley for the use of a portable typewriter, which I took to Memphis with me. With a radio receiver hooked over my head, I am pecking off this stuff.

If I do not know how to spell a word, I can go to the library here, but the truth of the matter is I spell "at" it and let the proofreader spell it.

Until I left, there was no report of anyone being killed on 51 South, at Cherry or in any of Beat Five.

If ads in the GCW do nothing else, they make Dr. Clanton wear his teeth. You can hardly catch him these days without them.

If Sax Weir could run Bilbo's campaign from the Vets Hospital, I should, at least, help run the GCW from the same place. I have run into Sax's tracks in several places here.

Speaking of Bilboites, we should mention here and now that A. C. Simpson, alias Pete Simpson, has been placed in good standing on the books.

The authorities here put nuts in a certain part of the hospital; the squirrels bury them until winter.

There is a fellow here who ought to take Deuce Clark's name, for, in every set-back game, he holds low. He is worse about that than John Bradley is about holding aces.

Our esteemed and efficient district attorney who is not likely to stop at that post, recently spent some of his money for another year of the Grenada County news as interpreted by the GCW.

We are still betting on Britain. Britain loses many battles, but no wars, to use a trite saying.

One of Jim Keeton's sub-agents, from Calhoun City, is here. I forgot his name.

His friends are doing a disservice to Mike Conner by encouraging him in political notions and ambitions. I am 100 per cent for Mike, but I hope he sticks to his present job for which he is ideally adapted, and let's politics alone. Until the people of Mississippi are born again or until they like the children of Israel, get lost in the wilderness, they are not going to elect Mike Conner. They are not lost yet, nor, at least, they do not know they are lost.

Lowrey must have paid off A. L. Hemphill, one of his new employees, for he (Hemphill, not Lowrey) paid his annual dues.

The liker-drinkers not only in but about Grenada are quarreling about the difficulty of getting liker. Old Odie bombs them in town, while Taylor Hayward blockades and blitzkriegs them outside town. No rest for the weary, no dram for the thirsty.

I have not seen any here quite as sweet as those at home.

Avent McElwraith's overseer, Mr. Rayburn, was in town Friday.

George Terrell won a statue of N.Y. on a horse and gave it to his wife. She has so many gals. I do which gal he gave it to.

Northern District Highway Patrol Office Put Here

The field headquarters of the Northern District of the State Highway Patrol have been opened in Grenada with offices in the Masonic Temple, and with Lieutenant Burns Tatum, a Grenada man, in command.

This district embraces the area of Mississippi North of Highway No. 82, and contains about 26 counties. Twenty-six men constitute the command under Lt. Tatum, four of whom will work directly out of Grenada and five in.

Seizeant Tom Hopkins, formerly of Coahoma County, will be in the office all the time.

This office will recruit to full strength 188 men as rapidly as possible and mobilization will take place at an early date, after which we will return to our normal lives until or if an emergency should arise.

The American Legion has been asked to assist the Government in the duties of Home Defense and we are in turn asking the civilian population to volunteer with us in the defense of our homes and our country should the necessity arise. We will be allowed to accept 100 volunteers from civilians other than World War Veterans.

Any American citizen that wishes to volunteer with us in this defense organization, please contact any one of the following officers elected to this company by our post:

Capt. W. H. Saunders; 1st Ltent. L. D. Boone and Knox Pierce; 2nd Ltent. Wm. Wright; Jim Keeton, Orman Kimbrough; Medical Officer, Dr. J. K. Avent; 1st Sgt. H. C. Wilson.

Further information on the plans will appear from time to time.

Grenada Band And Boy Scouts At Football Game

In addition to the scheduled football game with Pontotoc at Proby Field, on Friday night, Sept. 20th the Grenada High School Band and the Boy Scouts of Grenada will participate in a program of patriotism. This patriotic ceremony will take place before the game, so all loyal band boosters and football fans are urged to come early and give these two splendid organizations enthusiastic support. The band and football teams heretofore have always given good performances and both organizations promise the citizens who attend, one of the best performances ever given by Grenada High School students. The band has done much extra work recently in preparing for this game; they have purchased new music and have made substantial progress in preparing it. The beautiful majorettes have been added to the band since its last appearance, and they will do their part in making this program a success.

They are Misses Martha Johnson and Verma Leggett. The new drum major for the band is Mickey Angine, who has been one of its outstanding twirlers for the past four years. — Burton Keeton.

Farm Loan Conference Held At Greenwood Wednesday

W. E. Beneist, of Coffeeville, Miss., and B. F. Hall, of Coffeeville, Miss., directors of the Coffeeville National Farm Loan Association attended a two-day conference of Northwest Mississippi Association last Wednesday and Thursday in Greenwood. Also in attendance at the meeting were V. W. Purdy, secretary-treasurer and Miss Thelma Thompson, office assistant of the association.

J. P. Isleib, Deputy Land Bank Commissioner, Washington, D. C., addressed the meeting. He impressed upon the directors the importance of their responsibility as the policy making body of the national farm loan associations.

"In the hands of you directors in the field rests the full responsibility of the success of this farmer-operated credit system," Mr. Isleib said. "You have demonstrated in the past, both in good years and in bad ones that you can do the job. With your continued interest—and only with that interest—can this system continue to make progress and render service to farmers on land mortgage credit at low interest rates and on terms best suited to agriculture."

We stopped by to spend a dime or two with our former Grenada friend, Tom Neely, who has a nice place right along the highway at Batesville, and says he is doing all right in a business way.

Old Bake Hamsley, whom I saw at the Vets Hospital, is living a grand life. Eat, sleep, sleep, eat, in never-ending sequence.

Tommie Rose had to set out several extra plates Sunday for his in-laws.

dear mr top, i guess the reesun they is turnin out so minny fellers from parchnum is that thares a short crop to pick an they dont want to feed so much this winter.

Miss Betty Sherwood, of Grenada, and her roommate, Miss Elizabeth Birdsong, both graduates of 1940 class at MSCW, have their pictures in the September issue of the Illinois-Central Magazine. They are pictured in their caps and gowns.

Legion Elects Officers for Home Guard Organization

Grenada Post 35 America Legion met in regular meeting and at this time organized the Grenada County Home Defense Guards to replace the National Guards that will shortly leave for 12 months training.

This organization will be subject to the call of the sheriff, the Governor and the U. S. Government in times of emergency.

This district embraces the area of Mississippi North of Highway No. 82, and contains about 26 counties. Twenty-six men constitute the command under Lt. Tatum, four of whom will work directly out of Grenada and five in.

Seizeant Tom Hopkins, formerly of Coahoma County, will be in the office all the time.

You can't blame the little lady for wanting to avoid a tiresome trip to the telephone. But her method's all wrong. What she should do, of course, is order an upstairs extension telephone and say good-bye forever to those wearisome, worrisome dashes down the stairs.

An extension telephone takes the run out of running the home and gives the whole family a lot of extra convenience and added protection... All for a few pennies a day.

Call the telephone office today. You'll be pleasantly surprised to learn how little an extension costs.

VIEW OF THE SKY

Editor, Evening Post:

September is a very busy month; one of many changes. Vacations over, back to school, off to college, new clothes, etc. Astronomically speaking, the sun crosses the Equator on the 22nd, entering the sign of Libra (the scales), but literally in the constellation Virgo (the maiden); the air becomes clearer, the mosquitoes lessen (I hope) and the important constellations of Gemini, Taurus, Orion and Canis Major are beginning to appear earlier each night, much to our delight.

I hope the admirers of the planets have watched, with interest, Jupiter and Saturn that are less than 2 degrees apart, rising now at 8:45 p.m., and the beauty of the sky; Venus, which will have reached its greatest elongation west of the sun, Sept. 5th. This date marks the peak of Venus as a morning star.

Jupiter and Saturn will have been in conjunction three times within five months. The first time Aug. 15th, when Jupiter passed to the east of Saturn, but since both planets begin to retrograde as they approach in position to the sun there will be another conjunction when Jupiter will appear to retrace his position and move west of Saturn. Still another conjunction when this retrograde movement has ceased and each moves forward, in 1941. It will be interesting to observe the earth's big brother's antics, for the remaining months of 1940 and into the coming New Year.

Follow September's waxing moon to notice what a beautiful setting it forms between Jupiter and Saturn Sept. 20, then the waning moon, in conjunction with Venus, Sept. 28, early morning. These are along the line of the Ecliptic within 10 degrees north and south.

If, for a few minutes each night, we dismiss the troubled world from our minds and lift our eyes to behold the

myriads of stars we might recall that "the heavens declare the glory of God, and the firmament sheweth His handiwork."

Yours sincerely,
MRS. ALBERT BONELLI.

FRED LICKFOLD III CELEBRATES 7TH BIRTHDAY

On Monday afternoon, September 16, Fred R. Lickfold III, popular little son of Mr. and Mrs. F. R. Lickfold Jr., celebrated his fourth birthday by entertaining a large group of little friends on the lawn of his home on Pine Street.

Childish games were enjoyed. The children enjoyed especially the favors made of gum drops with a tiny American flag. The hostess taught the children to sing "God Bless America" instead of the usual "Happy Birthday to You".

Freddie received many lovely gifts.

A beautiful and large cake in white with pink decoration bore the words "Happy Birthday to Freddie" and had four lighted candles. This was served with individual cups of ice cream.

Assisting Mrs. Lickfold were: Mrs. Lickfold Sr., Miss Bird Sharp and Mrs. Bob Townes.

Poor Yalobusha

The Yazoo river system has four main rivers, the Coldwater, the Tallahatchie, Yocona and the Yalobusha, of which, if we remember the Yalobusha furnishes about 30 per cent of the water.

A splendid dam, so large that it defies description, and so efficient that it can hold back flooded waters of the watershed, however great, has already been completed on the Tallahatchie, which, however, is in Wall Doxey's district.

A large crew of men is now engaged at the Arkabutla site on the Coldwater river and this crew is preparing to build a levee that will hold back the waters of that river which, however, is in Wall Doxey's district. A large party of engineers is engaged now in finally locating a site for a dam on Yocona river, and the probability of building a dam on that river are so great that Editor Mullin of The Oxford Eagle is already quarreling about so much of Lafayette county being used as water storage space. This river, however, is in Wall Doxey's district.

Immense areas of fine fertile land will be made susceptible to cultivation below each of these dams in Wall Doxey's district. The eroded hillsides and the worn-out level lands in the vicinity of these dams, and for many miles below these dams will provide fine farm homes for these people who, however, are constituents of Wall Doxey and Whittington.

Oh me, nothing has been done or will be done on the Yalobusha which, unfortunately, is not in Wall Doxey's district.

A Good Idea for Grenada

Purchase of the Baird property on Howard Street by the City of Greenwood has been completed, and the deed filed for record. The city purchased the lot at the request of the Chamber of Commerce, and it will be used as a parking center for out-of-town shoppers, as soon as plans are completed and a proposed shopkeeper's building is erected.

This was one of the main objectives of the Chamber of Commerce for this year, and the co-operation of the public-spirited City Council made it possible to carry out this plan which will prove one of the major elements in adding to Greenwood's retail trade.

The Greenwood Commonwealth The establishment of such a facility in Grenada was long the dream of Mr. John W. Bradley, alderman. Mr. Bradley worked on this a great deal. It is still a good idea.

Interesting Paragraph

Major Sullens apparently has "promoted" his old friend, Governor "Mike" Conner.

The Major recently headed his personal column with a statement that Mississippi never had a better governor than Mike.

For a year or more the Major has been telling the world, or as much of it as reads the Jackson Evening News, that Hugh L. White was the greatest and most popular governor Mississippi ever had.

Some of the politicos and political prophets profess to see in the Major's promotion of Mike a hint or indication that the political group for which the Major so often speaks, started "taking stock" immediately after the recent primary and are already trying to get together on someone to beat Dennis Murphy in '43.

We wouldn't go that far, and we suspect Brother Conner views his "promotion" from this source with a fishy and skeptical eye, and perhaps also with a grimace and a grin.

The fact may be, however, that this most interesting paragraph means nothing more or less than that the Major has read the senatorial election returns. —The Brandon News

We too read that startling paragraph in the Daily News. We interpreted it to mean that Editor Sullens was getting old and that he had decided to tell the whole truth for the rest of his days.

Mike Conner is no fool, far from it. He has done a good job, one that fits him "like a glove". We do not believe that he is fool enough to let Fred Sullens and that bunch who have fought him all his political life to "promote" him into another disastrous political campaign.

Mrs. Will Hayward accompanied Taylor Hayward and wife to Memphis Saturday for a few hours' stay. They were kind enough to take me along while I looked over the Vets Hospital.

The Sardis Dam, which we passed over enroute home from Memphis is just too vast to permit description. Suffice to say, it is about two and one-half miles long and too wide and tall to talk about.

Winter Rye Grass for Lawns French Market

If Uncle Sam would permit young men to enlist for one year, the period for which they will be conscripted, the gaps in the army would be filled without resort to the draft.

Jim Shaw's army will soon become a part of Uncle Sam's army, according to rumor. The date is not definite, but many think they will be called into service by November 15th.

Began to Make Excuses

Then said he unto him, A certain man made a great supper, and bade many come:

And sent his servant at supper time to say to them that they were bidden. Come; for all things are now ready.

And they all with one consent began to make excuses. The first said unto him, I have bought a piece of ground, and I must needs go and see it; I pray thee have me excused.

And another said, I have bought five yoke of oxen, and I go to prove them; I pray thee have me excused.

And another said, I have married a wife, and therefore I cannot come.

Luke 14: 16-20

And so it is today, when Uncle Sam is fixing to call for men to fill the gaps in the army. Many have taken wives; many pray that their college education be not delayed or enlarged; many that they have good jobs and that they do not want to imperil their jobs and their chances of promotion. True, all true, and all good reasons from a personal, selfish standpoint.

Unfortunately, you cannot get up an army if you let each potential soldier have the final "say" as to whether he will be part of the army. "Let George do it." Let that poor peckerwood who has no job, who has no home, who has no friends or loved ones to miss him, let HIM go. But did you ever stop to think that that poor peckerwood has nothing to defend; that he has nothing to win or lose; that, so far as his personal interests are concerned, it makes little or no difference whether this is a free country or a totalitarian state? Did you ever stop to think that the fellow who has the means to go to college, the man who has a good job and a good home, has SOMETHING to defend, something at stake?

Not Posing as an Expert, But

Not posing as a military expert at all, we do however venture the assertion that if the U.S. Army would accept volunteers for one years training the President would not have to invoke the provisions of the Conscription Bill immediately. As conditions now are, a boy who volunteers must sign up for three years service, irrespective of the nature of future emergency. Then too, such a volunteer would be liable for duty anywhere.

The draftee, on the contrary, faces only one years service, and that service limited to U. S. possessions and to the Western Hemisphere.

Many young men fear that, if they volunteer, they will be kept in service for three years whether there is war or not. They are willing to fight for their country if needs be, but are unwilling to obligate themselves to three years loss from their business, and three years loss of opportunity, unless national and international conditions make such lengthy service imperative.

We feel sure the War Department has good reasons why these distinctions are made, and this apparent handicap placed upon the would-be volunteer, but these reasons are not apparent to us.

National Interest Comes First

There is disquieting talk concerning "bottlenecks" in the defense program. It is obvious that the time taken in turning plans into production is dangerously long.

According to commentators, certain segments of American industry are largely at fault, refusing to go ahead and do their job unless and until they are assured of excessive profits, without possibility of loss. Just how accurate these charges are is not known, as the whole defense drive is enveloped in clouds of uncertainty. These clouds must be dissipated. The American people want to know and they are entitled to know just what groups are putting selfish interests ahead of the national interest. The greedy industry, no less than the greedy labor leader or the greedy politician, must be given short shrift.

There is no question about the patriotism of those basic American industries which are essential to defense—the transportation companies, the power and light companies, and the majority of all business. These industries are sacrificing profits when necessary to the end that the public good be served. But if there is a purely mercenary spirit in some industries—a spirit which thinks only of the big money, and cares not how they make it—the American people will demand stern action.

There must be profits—no man can build a plant without feeling that eventually he will earn enough to pay for it. But there is a tremendous difference between profit and profiteering, even as there is a tremendous difference between the sincere labor leader who seeks to obtain for the worker a fair return for what he does, and the labor racketeer who seeks to exploit the industries which make employment possible.

Industrialists, labor leader and officeholders who put selfish interests above national interest, are going to feel the full force of an aroused people's wrath, before this emergency is over.

With the start he has, Shortstaple Rayburn will have a pushover in 1942.

Dr. Siler, delivered a soul stirring sermon at Shiloh Baptist Church Sunday.

If there is a man who is always

busy on his farm, striving to make an honest living, it is our door neighbor, Hardy Carter, and he is never too busy to help a neighbor who is down. When the writer of this was knocked out by a car injury last year, he came and kept fire wood cut, and did the chores, that is a kind of religion that is more precious than words. Now Mr. Carter is so afflicted that he can't work and Monday morning four of his neighbors without any warning came and are cutting and saving his hay, which reminds us of the way folks used to do and should do.

The world is in an awful state. It might profit us all to turn to Bible and read book of Ezekiel and then read Revelation and closely study both books.

Ask for Annual "Grenada Dog House Week"

TO THE HONORABLE BOARD OF
MAYOR AND ALDERMEN

The undersigned petitioners show
into the Honorable Board of Mayor
and Aldermen the following:

I. That a goodly number of recog-
nized and substantial citizens of the

city of Grenada have been placed in

certain positions of grave and embarras-

sing nature at the insistence of and

the concerted action of the wives of

such citizens; and that such positions

have been forced upon your petitioners

with repeated and alarming frequency;

and that no objections by your

petitioners are in any manner suffi-

cient to offset the persistency of the

conspirators; and that any and all ob-

jections as voiced by your petitioners

have fallen and do fall upon totally

dead ears; and that such procedure

has become so usual and has been so

repeated as to justify an individual

and special title for the same; to wit:

"In the Dog House"; further

1. That the only reward for being

chosen to occupy such a position is

untold misery and suffering, and that

the very name "In the Dog House" in-

dictates by its nature, cruel and in-

human treatment; further

2. That the cause or causes of

such courses of action are entirely

and absolutely beyond the control of

mankind; and in most instances, are

of little significance; and are on all

occasions beyond ordinary and rea-

sonable understanding; and that such

action in the last specific instances was

perpetrated against your humble peti-

tioners for no known reason whatever

other than that your petitioners did

engage in the peaceful and harmless

pastime of eating with great relish

that delectous and tasty Southern dish

known as fried catfish; and further

4. That the woes of being "In the

Dog House" are likely to and usually

do descend upon any and all of man-

kind, regardless of his personal tem-

perament, whether it be meek or

stormy; and without respect to any

person's station or position in life,

and that it is reported to your peti-

tioners with reliable certainty and from

unimpeachable sources that one of

our own good and esteemed broth-

ers who occupies a high and honor-

able position of public trust is at the

present time suffering from the above

mentioned maltreatment to which re-

ference is made in official circles as

"Langushing in the Canine Dwelling"

rather than being referred to by

the less dignified term of "In the Dog

House"; further

5. That such a condition and state

of affairs is indeed deplorable and

wholly undesirable and is against the

general good of the community in that

much disturbance of the peace and

tranquillity of morals is the re-

sult; and particularly is it most unde-

sirable in that it is an unwholesome

influence upon the youth of this city.

Mr. W. W. Whitaker,

Grenada, Miss.

My dear Whitaker:

Editorially you wanted to know why a majority out in Belz Town, your county, voted against Mr. George White when he was responsible for the reduced taxes under the Homestead Education Act.

It only remains for me to inform you that every person who cast a vote with the exception of your petitioners and myself, voted against Mr. George White when he was chosen to represent the people of the Act, when seeking a separate office has been nominated at the ballot box.

Yours truly,

JIM WALTON.

Respectfully submitted,

The male students, over fifteen or sixteen, in EVERLY school and college in this country should receive as much military training as the facilities of their respective institutions can afford.

Remember, you can send the GCW

begin THIS week. It will cost no less
next week.

If he has not shown it to you, get
Cousin and Colonel Will Hoffner to show
you that letter from Bill.

My Column

W. H. Whitaker Jr.

The Buckeye State Shows were held last week, starting Monday and running through Saturday night. The carnival was fairly good, having two free attractions, namely a Ben Act and a dog act. The midway was filled with skin games and exhibited a fair variety. There was a "Hooley Koochy" show, as usual, and was, as usual the best attended act of the carnival. The "ladies" put on a thrilling fan dance, without the fan, according to Keene Huntington. There was a rat game, crap game, bingo game, roulette game, card game, and many other games where money was easily to squander. All and all it was a pretty good carnival.

Mary Cain, comedy editor of The Student Sun, and ardent admirer of "Wind Bag" Willkie, last week called the President a dictator for trading the 50 destroyers to Great Britain. Mary, as you should know, the President of the United States is also Commander-in-Chief of the Army and Navy. He had the authority to make this deal without asking the advice of Congress. Anyway, why should heicker around with a body of men for the mere sake of getting their approval when it was not needed?

Wonder why "Uncle" is hanging around. Yester "so much here lately. We don't blame him very much for Marguerite is a most attractive young lady.

Last year the Grenada Bulldogs defeated every team except one. The Grenada fans demanded a better schedule for the coming season, that is exactly what has been done. So for goodness sake don't start whining if the boys loose a game or two. With the heavy schedule it is highly possible that the local eleven will be defeated once or twice.

Virgil Barnes is hanging on his eyes keeping him out of the army. He had better forget that one-for I'm going to tell the draft board about the numbers times he has hooked his glasses.

There is no change for me to eat the draft so I'll give it a try. I thought one way or the other, I'm physically fit; anyone can eat pot roast I'm vising enough; not married; have no children; and I'm dependent on someone.

Acknowledged letter and check for the Grenada "Bull" from Miss Louise McCaslin who is employed at the Mississippi Power and Light Co. in Sardis. She said she could not do without it any longer. Thanks, Louise. We hope you enjoy it.

See where a fellow is going to come to Grenada and buy hound dogs. Ain't something a lot's people would be glad to give them to him at least their neighbor's would.

Wonder what that guy is going to do with them? Sometimes they are sold back to hunters for a ridiculous price. Some old egg sucking dog will have a pedigree a mile long in a few weeks.

The Local Editor of the Siloester Standard gives some good reasons why we should support the Democratic Party. Good logic, brother.

Under President Roosevelt more legislation beneficial to the workers of America has been enacted than in all prior history of the nation. The American worker will remember this when he goes to the polls this fall. He knows that it is to the Democratic party that credit goes for the Social Security Act, the Railroad Retirement Act, the Fair Labor Standards Act, Unemployment Compensation Act and the National Labor Relation Act—the Magna Carta of Labor. The Democratic Party has not forgotten the workers of the nation and the workers of the nation will not forget the Democratic Party.

Hitler seems to think the English people are damn fools not surrendering their liberties to him. It will be a long time before the English capitulate—agree to Hitler's terms never!

The Republican nominee pledges himself to continue the New Deal social services, to build an invincible defense, and to put an end to spending. When he gets time he will, no doubt, answer the question, "How?"—The New Yorker.

Again the folly and viciousness of placing guns in the hands of convicts and using them as guards has been demonstrated in the escape of 36 prisoners from Arkansas' Cummins Prison. It is a system penologists have condemned since time immemorial.—Albany Gazette.
